INDIG

THE POWER OF "YES"

The press that will have you saying yes to any application, on any substrate, in any run length.

Dare to Imagine new business opportunities in commercial print.

HP Indigo is redefining the role of digital with advances that blur the boundaries between all forms of print production. Digital isn't just for short runs anymore, longer runs can now affordably utilize digital flexibility. You get the look, feel and operational familiarity of offset, and labor-saving automation, at speeds that are already leading the market. It's your turn to thrive in a marketplace booming with new, high-margin ways to grow. With HP Indigo, you can start moving ahead of your competitors today.

high-quality

press that lets you say yes to every job with unshakeable confidence and unmatched quality.

- Beyond-offset quality with HD imaging option; variety of print quality modes
- FM Screen for the sharpest, smoothest prints possible, eliminating moiré effects altogether, for detailed images or photos, halftone text and more. Available on HD presses.
- Superior capabilities for small solid text and fine lines
- Achieve perfect color across Indigo presses, sites, and between Indigo and offset - day in and day out

All-powerful. All-purpose. All jobs.

The road to digital print success is paved with the ability to say yes to any request. Any run length, any substrate, any color—say yes to it all.

- Do it all with a single press; from general commercial print applications and high end photo printing to folding cartons, secure documents, gaming and more.
- Widest substrate range in the industry. 70-600 micron media. Virtually endless substrate types (uncoated, black and colored, synthetics, metalized and more).
- Flexibility in switching between and integrating substrates seamlessly
- 7 ink stations with unlimited color combinations, featuring 14 application-specific inks and unlimited spot colors.

Perfect communications

even within a single job.
